Buying and selling is a part of everyday activities. People used to do this long ago. But shopping habits have changed a lot. In the past, you could deal directly with a person. At that time, you could solve any problems at once.

Buying and selling today depend a lot on online activities. First, you must log on the internet and choose the price, the quality and time of delivery. You must provide correct and clear information to get your

product. When there is a problem, you must fill in a form describing it clearly. An online assistant will contact you. But it may take a long time to get a reply. The biggest problem is that some companies can't be reached easily because they may be far away from you or you don't know the exact address. To buy online, you must be careful about your personal information. You must keep it secret and deal with trusted online companies.

Takayama is a beautiful old town in the mountains. It still has an ancient street market as well as a farmers' market along the river. Some of the buildings in Takayama are more than four hundred years old. A few of the oldest houses are now museums where visitors can see what life in Japan was like in the past.

Near Takayama is an old village where you can still see traditional carpenters at work. Yamadera is a collection of temple buildings on the side of a mountain. It is difficult to climb up to the temple, but the view is beautiful.
